Office Action Summary

Serial Number: 09/769326
Art Unit: 3727

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over McAtarian in view of Wang. It would have been obvious to provide the container of McAtarian with a cover as taught by Wang in order to protect the content in the container.

Claims 1-5 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims includes alternative language. Alternative language "or" is too vague and indefinite to define the claimed invention.

Any inquiry concerning this office action will be directed to Examiner Joseph Moy, (703) 308-1145.
